

atai Life Sciences Announces R&D Day Agenda

October 20, 2022

NEW YORK and BERLIN, Oct. 20, 2022 (GLOBE NEWSWIRE) -- atai Life Sciences N.V. (NASDAQ: ATAI) ("atai"), a clinical-stage biopharmaceutical company aiming to transform the treatment of mental health disorders, today announced the agenda for its virtual R&D Day. During this event, management and scientific leaders will provide a comprehensive review of atai's diversified mental health pipeline. The event will also provide updates on near-term catalysts, with a focus on the upcoming Phase 2a topline results for PCN-101 (R-ketamine) for treatment-resistant depression (TRD).

The event will be webcasted live on Tuesday, October 25, 2022, at 12:00 PM ET. To access the presentation and webcast, please use the following [link](#) or go to the [events](#) section of atai's Investor Relations page. Following the webcast, an archived version will also be accessible in the [events](#) section of atai's website where it will be available for up to 90 days.

atai Life Sciences' R&D Day agenda will include:

- **atai Life Sciences R&D Strategy and Pipeline Overview** – Florian Brand, Co-Founder and CEO
- **Fireside Chat**
 - Topic: The Clinical and Regulatory Landscape in Depression
 - Moderator: Dr. Heather Berlin, Neuroscientist, Clinical Psychologist, Associate Clinical Professor of Psychiatry and Neuroscience at the Icahn School of Medicine at Mount Sinai
 - Participating KOLs:
 - Gerard Sanacora, MD, PhD, Professor of Psychiatry at Yale School of Medicine, Director of Yale's Depression Research Clinic, and Co-Director of Yale's Interventional Psychiatry Service
 - Heddie Martynowicz, PhD, Regulatory professional with 30 years of neuroscience drug development experience at Janssen, Merck and BMS; President of Neokee Pharma Consulting, LLC
- **Program Updates:** Srinivas Rao, MD, PhD, Co-Founder and Chief Scientific Officer; Rolando Gutierrez-Esteinou, MD, Chief Medical Officer; and Glenn Short, PhD, Senior Vice President of Early Development
 - PCN-101 – Context and discussion of upcoming results of Phase 2a clinical trial of R-ketamine for TRD
 - COMP360 – Overview Phase 3 pivotal program design of psilocybin therapy for TRD
 - VLS-01 – Overview of Phase 1 trial of a buccal thin film formulation of N,N-dimethyltryptamine (DMT) for TRD in combination with atai's digital therapeutic app IDEA-1
 - RL-007 – Preview of design of the upcoming Phase 2b trial of RL-007 for cognitive impairment associated with schizophrenia
 - GRX-917 – Review of preliminary pharmacokinetic and quantitative electroencephalogram (qEEG) results from Phase 1 clinical trial of deuterated etifoxine for generalized anxiety disorder
 - KUR-101 – Review of positive initial results from the single ascending dose component of Phase 1 trial of oral formulation of deuterated mitragynine for opioid use disorder

About atai Life Sciences

atai Life Sciences is a clinical-stage biopharmaceutical company aiming to transform the treatment of mental health disorders. Founded in 2018 as a response to the significant unmet need and lack of innovation in the mental health treatment landscape, atai is dedicated to acquiring, incubating, and efficiently developing innovative therapeutics to treat depression, anxiety, addiction, and other mental health disorders.

By pooling resources and best practices, atai aims to responsibly accelerate the development of new medicines across its companies to achieve clinically meaningful and sustained behavioral change in mental health patients.

atai's vision is to heal mental health disorders so that everyone, everywhere can live a more fulfilled life. For more information, please visit www.atai.life.
